What is this document for?

This advance decision to refuse treatment has been written by me to specify **in advance** which treatments I don't want in the future.

These are my decisions about my healthcare, **in the event that I have lost mental capacity and cannot consent to or refuse treatment.**

This advance decision replaces any previous decision I have made.

Advice to the carer reading this document:

Please check

- **Please do not assume that I have lost mental capacity before any actions are taken.**
I might need help and time to communicate when the time comes to need to make a decision.
- If I have lost mental capacity for a particular decision **check that my advance decision is valid, and applicable to the circumstances that exist at the time.**
- **If the professionals are satisfied that this advance decision is valid and applicable this decision becomes legally binding and must be followed,** including checking that it is has not been varied or revoked by me either verbally or in writing since it was made.
Please share this information with people who are involved in my treatment and need to know about it.
- Please also check if I have made an advance statement about my preferences, wishes, beliefs, values and feeling that might be relevant to this advance decision.

This advance decision does not refuse the offer or provision of basic care, support and comfort

Important note to the person making this advance decision:

If you wish to refuse a treatment that is (or may be) life-sustaining you must state in the boxes ***“I am refusing this treatment even if my life is at risk as a result.”***

Any advance decision that states that you are refusing life-sustaining treatment **must be signed and witnessed on page 3.**

Further information (optional)

I have written the following information that is important to me.
 It describes my hopes, fears and expectations of life and any potential health and social care problems.
 It does not directly affect my advance decision to refuse treatment, but the reader may find it useful, for example to inform any clinical assessment if it becomes necessary to decide what is in my best interests.
