A detailed breakdown is provided in the graph below:

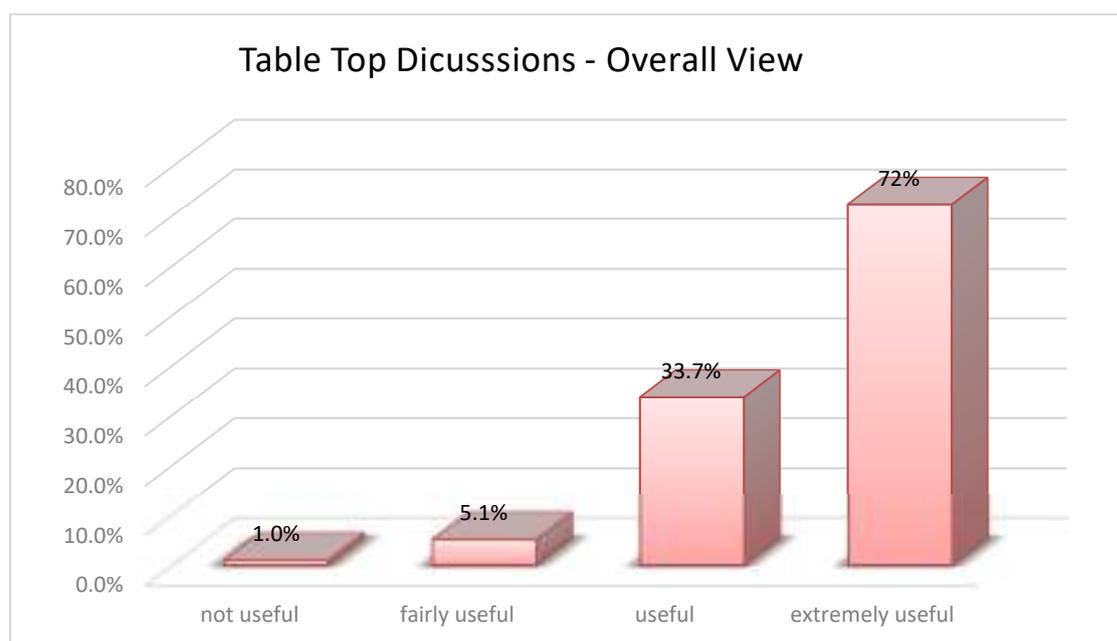

## Presentations

Feedback forms and the comments provided were analysed. Overall presentations were positively received. Below is a sample of comments relating to the presentations:

- Very good use of a mix of chairs.
- Very useful to explain Cancer Alliance work and objectives.
- Learnt about the project which I knew little of detail previously.
- Will need to look at the website; served as a useful prompt to do that.
- Moving and compassionate, touched me what a great presentation.
- Excellent information and follow ups.
- Great example of hearing in to practice.
- Helpful to explore challenges and managing expectations.
- Exceptional, relayed the messaged in a well-informed manner.
- Good to know stakeholders are engaging in Patient Involvement.
- Fab example of what today is all about.

## Table Top Discussions

All table top discussions were received well, with delegates indicating that they found the workshops either, 'extremely useful', or 'useful'. Below is a graph detailing a breakdown of all table top discussions combined and a sample of comments:

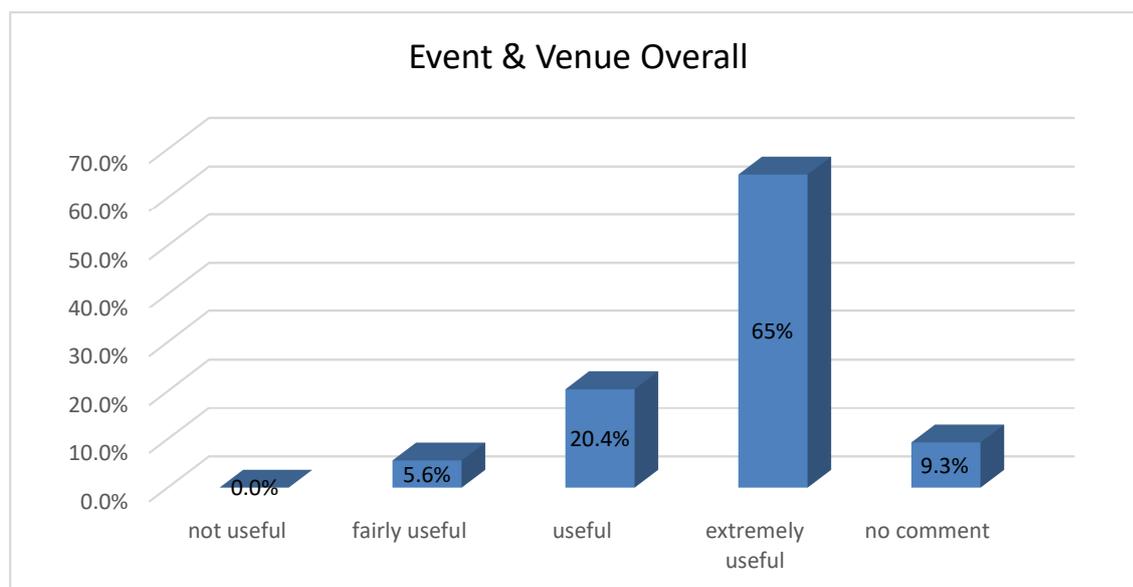

**Collaborating to improve cancer care**

## Comments:

- Great to have the opportunity to give points of view.
- Useful insight and resource tool.
- Excellent to hear the detail inspiring story.
- Session too short but informative, well presented in time available.
- Very Informative.

## Venue

## Sample of comments relating to the event and venue overall:

- Excellent networking event, also thank you 10/10.
- A wonderful day – well done, gives new hope for meaningful involvement a great range of projects.
- Fantastic day, very informative and lots of networking.
- A really good day! Well organised and informative.
- Quite a long day information overload towards the end.
- Thanks to all involved for an excellent day.
- Very well done to all concerned – very “slick” day and the passion of the team was evident and inspiring.
- Maybe a little more time for group discussions.
- Networking; Learning and sharing research/patient involvement techniques and results; meaning about future plans.
- How to involve patients as part of day to day interactions; methods of involvement.
