

**Dr Abigail Gault**

Abi is a final year Medical Oncology trainee based in Newcastle Upon Tyne. She recently undertook a translational CRUK funded PhD at Newcastle University exploring microbial metagenomics in checkpoint inhibitor (ICI) response and toxicity. She led the development of the regional ICI special interest group and toxicity guidelines.

Abi is also a board member of the National Oncology Trainees' Collaborative for Healthcare Research, contributes to the BONUS mentoring scheme and the BTOG thymic special interest group.

Her main clinical interests are melanoma, checkpoint inhibitor toxicities and early phase clinical trials.
