

**Luke Sayers**

I am a 42 year old GP Partner in Whitley Bay. Originally from Nottingham, I came to the region in 2001 for medical school and stayed! I completed GP training in 2013 and took on a personal list at Whitley Bay Health Centre.

I have a longstanding interest in continuity of care and first published in 2014. Recently I have been involved in national conversations about continuity of care and bringing back the family doctor.

In April 2024 I became Clinical Continuity of Care North Tyneside ICB lead.
